

Trade sectors and products

26-27 November 2026 | Fiera del Levante - Bari Fairgrounds

To be sent back with the application form indicating your products sectors' codes

TUNNELLING AND UNDERGROUND WORKS SECTOR	
A	Construction company
A100	General construction contractor
B	Specialist company - special works
B100	Specialist contractor
B101	Geognostic surveys
B102	Artificial ground freezing
B103	Permanent lighting
B104	Fire-fighting systems and smoke detection
B105	Safety systems (escape routes, fire-rated doors)
B106	Hydraulic systems (lifting, drainage)
B107	Cementitious and chemical injections
B108	Jet grouting
B109	Fire Doors REI
B110	Drainage systems
B111	Excavated soil and rock management systems
B112	Temporary ventilation systems
B113	Geotechnical investigations
B114	Main and emergency ventilation
B115	Escape routes
B116	Tunnel Coating, Road Markings and Signage
C	Public entities, clients and concessionaires
C100	Public Administration
C101	Contracting Authorities, motorway operators
C102	Trade associations
D	Material supplier
D100	Additives
D101	Concrete additives
D102	Steel fibres
D103	Polymer fibres
D104	Geotextiles
D105	Greases and oils for TBMs
D106	TBM Spare Partes
D107	Formwork and Equipment for Precast
D108	MSV & Conveyor Belts
D109	Waterproofing products
D110	Products for tunnels
D111	Ground conditioning products for TBMs
D112	Final concrete lining
D113	Self-healing materials
D114	Fire protection systems and materials
D115	PPE for confined environments
E	Machinery and equipment supplier
E100	Tunnel equipment
E101	Rock bolts and soil nails
E102	Underground loaders and dumpers
E103	Moulds
E104	Steel ribs
E105	Copressors
E106	Cutterheads, excavation tools, rollers, disc cutters
E107	Demolition and crushing equipment
E108	Noise abatement systems
E109	Vapour, fume and odour extraction systems
E110	Plant and equipment safety systems
E111	Excavators
E112	Explosives and blasting equipment
E113	Extensometers
E114	Dust-retaining filters
E115	TBM supply (EPB, Slurry, Hard Rock)
E116	Tunnel roadheaders

E117	Grouting and injections
E118	Concrete batching plants
E119	Aggregate crushing plants
E120	Inclinometers
E121	Tunnel machinery
E122	Shotcrete machines/pumps
E123	Evacuation vehicles
E124	Micropiles
E125	Conveyor belts
E126	Piezometers
E127	Steel meshes and ground support systems
E128	Spare parts for tunnel machinery
E129	Laser scanning surveys and GPR
E130	Precast concrete segments (lining)
E131	Back-up systems (conveyors, piping, ventilation)
E132	Structural and geotechnical monitoring systems
E133	Instrumentation
E134	Monitoring instrumentation
E135	Electric tools
E136	Pneumatic tools
E137	Tunnel wagons
E138	Limited access point vehicle detection - Bollards
F	Service provider
F100	Service companies
F101	Consultancies
F102	Territorial mapping, detection and network digitation
F103	BIM
F104	Quality control
F105	Environmental management
F106	Material testing laboratories and equipment
F107	Laboratories
F108	Software
F109	Web portals
F110	Machinery and equipment rental company
F111	Small equipment rental company
G	Engineering firm
G100	Engineering
G101	Engineering services
G102	Geotechnical and structural design
G103	Numerical modelling (FEM)
G104	Construction Supervision and Project Management
G105	Service companies and software and hardware consultancies
G106	Worksite safety coordination services
G107	Planning and/or construction management
G108	Mechanical design
G109	Civil works testing and inspection
G110	Surveying
H	Educational institutions and Universities
H100	Universities
H101	Research institutes
I	Technical publishing (online and offline) - Certification bodies
I100	Specialist technical publishers
I101	Information and dissemination media
I102	Online publishing products
I103	Technical publications and trade journals
I104	Certification
I105	Certification companies
L	Other
L100	Please specify _____
